Kathy has been described, by other colleagues of mine, as a person who can look at a person's overall personal needs, and show solutions and options that will set them at ease while not only saving them money, but increasing their sense of security. I agree with these comments 100%.

I have known and worked with Kathy long enough to trust her with my clients. She has excellent education in her profession and her experience speaks volumes.

Kathy has a very professional presence and her code of conduct when working with referrals is incomparable. I will continue to send her my business, and will recommend her to anyone.

Kathy is an extraordinary resource for the latest information about health insurance. When I approached her to help us, she leapt fearlessly into the confusing muck, steered us in what was clearly the right direction, and led us to the right conclusion. I'm forever in her debt for taking this stuff on for us. She's the best!
